EXPERIENCE

Tricon Infotech, Bangalore — Software Engineer

Jan 2021 - Present

Working as a web developer. Associated with FinTech and education related products. Implemented detail and compact mode to view loan status. Added filter options based on user's privilege for easier access. Enhanced the drop down functionality focusing more on certain attributes. Migrated repo from jenkins to github actions for more streamlined releases.

Tata Consultancy Services, Bangalore — Assistant System Engineer

July 2019 - Jan 2021

I have been associated with Cisco for the past year. I developed a web application using ReactJS (Cisco) which helped the client to view changes even when their tools were down. Ported it as a windows desktop application using ElectronJS for better use and reach.
